GIVE US LIBERTY INSTEAD OF TREASON

A Proposed New Year's Resolution for Congress

By Dr. William Ames Curtright, DBA

Founding Father Fisher Ames (1758-1808)

Dear Members of Congress,

Do you know who the author of the First Amendment was? Madison? Guess again. Consider making your New Year's resolution to know who it was, and what motivated his wording. It is incumbent on those employed in any trade to know the tools of their trade. As Members of Congress, it is incumbent on you to know the tools of your trade. After all, you have been entrusted by the American people. Imagine a surgeon not knowing how to use his instruments. Imagine Members of Congress not knowing how to operate the tools of history set in place by their Founders. In both cases, lack of knowledge or action would result in loss of life; in the former case, an individual, in the latter, a nation.

Allow me to acquaint you with one of the most respected Founding Fathers. Arriving ahead of schedule, a young man of Puritan descent placed his feet on the ground of New York City anticipating his role in the 1st Federal Congress soon to convene on March 25, 1789. Just a couple months earlier, he had defeated Samuel Adams of Massachusetts by a very narrow margin, awarding him the seat in Congress. He resided at 15 Dock Street, and when he arrived in New York, he wrote a note to a friend at Harvard where he said, "Prepare my will, we have only 26 representatives, and we do not have a quorum." He was joking, but there was question as to whether the government could survive. He continued, "The public will forget the Government before it is born. The resurrection of the infant will come before its birth. . . . Happily, however, the federal interest is strong in congress. The old congress continues to meet and it seems doubtful whether the old government is dead or the new one is alive." Well, the old government was dead and the new government, although still alive, is not well. The Founder of whom I speak is Fisher Ames, and I am his descendant. Today, you can still find these words on the wall at that address on Dock Street, now an old and tattered building, "I prefer dangerous freedom over peaceful slavery." The building's decay is telling of the words written on it. Please allow me to introduce his thoughts to you, as I am a recipient of his lineage and spiritual heritage.

INTRODUCTION

It should come as no surprise to any Member of Congress that our government was formed to be a Republic and not a democracy. The difference between the two lies in the *limits* placed on the government by law. In a Republic, the people are protected by a charter or *constitution* to protect their *inalienable* rights that could otherwise in a democracy be stripped away by the government, even if that government was duly elected by the majority. Fisher Ames believed in a Republican form of government. He believed the federal government's primary purpose was to manage interstate commerce and oversee national defense. That type of federal government does not exist anymore. Our Founders would mourn if they knew that the government for which they had pledged their lives, their fortunes and their sacred honor, had been replaced with a new and dangerous form of government.

I define "Deep State" as "a category of individuals that have purposely been placed within our government as employees and elected officials who want to increase government, and therefore increase their power and political sway." Some think the phrase is new and refers to a conspiracy theory of right-wing ding-dongs. They are wrong on both accounts. The Deep State came from our old enemy, evil. Evil comes in all shapes and sizes — greed, selfish power, desire to control, totalitarianism, communism, socialism, and fascism, but in the end, it's just plain evil. It is man's inherent corrupt nature to be evil. Our Founders knew that man is inherently corrupt, and therefore in need of God. So at the very core, the Deep State is evil and at enmity with God Himself. The Deep State is an ideology conceived in evil, and like fire, will destroy. Our government now houses a "deep state" forest fire that has gone amok.

The Deep State – What's at Stake?

Evidence is mounting that an informal network from China, Russia, Iran, North Korea, and extremist Muslim countries have unified and become part of an outside global entity. They are unified with the American Deep State and are helping to fund it. They desire to attack our principles, morals, and beliefs. It has long been the strategy of our enemies to destroy America from within. We are too strong to be destroyed from the outside, so our enemies attack from within at our Judeo-Christian values and our Republican form of government. The Deep State is an evil enemy and a genuine threat to our country.

The American Deep State Began

As leftist activists, Bill and Hillary Clinton aligned themselves with the communist-minded *Students for a Democratic Society*. Once Bill was elected president, they implanted leftist beliefs in the administration, and the Deep State burrowed into our government. Prior to his presidency, Bill Clinton had already acquired a tarnished reputation that included anti-war statements and dubious behavior regarding his draft orders. Colonel Eugene Holmes was the Commander of the University

of Arkansas ROTC program. Suspecting that Clinton had maneuvered the situation in order to evade the draft, he produced a notarized statement during the 1992 presidential campaign to inform the electorate of Clinton's deception.¹ An opinion in *The New York Times* echoes the indictment, "On present evidence, Bill Clinton worked to avoid the draft, at times cleverly."²

While attending Yale Law School in 1971, Hillary Rodham Clinton took a summer internship with a leftist radical law firm in California.³ The senior partner of Treuhaft, Walker, and Burnstein had once been a member of the American Communist Party, and the law firm represented the Black Panthers. Her radical associations, as well as Bill Clinton's, leave no question as to their radical, leftist agenda. There are many questions and not enough answers in Hillary's long list of illegal and dishonest political activities.

President Barack Obama claims to be the son of Barack Obama Sr. He was raised by his mother and mentored by Frank Marshall Davis, a card-carrying Communist. That he had a close relationship with the latter, and that the validity of the birth certificate produced by the Obama administration is problematic, doubt is raised regarding his paternity. Evidence from investigative research by others, and confirmed by my own, reveals a different account of Obama's birth and paternity. It can be argued that Obama's name is an alias, and that his birth name was Berry Davis. Berry Davis was born by a midwife in a Seattle, Washington, apartment, and does not have a birth certificate. A Washington State College transcript for Obama's mother suggests she resided at that apartment at the time of his birth. The influence Frank Marshall Davis (and Bill Ayers) had on Obama is without doubt. The book they authored, including the story of Obama's birth, was fictional; yet, it was passed off as truth to the American people.

While in office, Obama nurtured the Deep State that had been set in motion by the Clintons. The radical dam was broken wide open and the Deep State continues to pour out. We've had sixteen years of radical floods infiltrating our courts, schools, and government. When the FBI recently took the law into their own hands, they became traitors of our Republic, and if the rule of law is discarded, so is the Republic.

The Deep State – How It Works

The Deep State has tirelessly brought destruction by bankrupting, diluting, and disrupting duly elected officials, among them President Trump. These leftist collectivists are savvy at joining their type together for the common purpose of destroying the America our Founders fought and died to defend. How does someone in the Deep State accomplish this goal? The same way evil has always done it: from the inside out. Billionaire globalist George Soros is one of several Wall Street powers funding revolutions, leftist demonstrations, newspapers and media groups on an obscene level. Mega-rich globalists, who today are using television networks to spread their propaganda, have unlimited funds to carry

out their mission to destroy our Republican form of government, and George Soros is only one of hundreds of globalists. These globalists fund candidates at enmity with America's values, and upon appointment to high cabinet positions, they aid the Deep State. It should be noted that these globalists actively work to rid America of its rich history, most recently by tearing down historical statues. Destroying history is destroying truth. But globalists want to control the future, so they work feverishly to destroy the past. Globalists encourage pornography that ultimately destroys families. Look at the policies they support and your nose will lead you to the gutter. They encourage rioting and race disputes. The bottom line is that globalists crave destruction and anything that will destroy America. Many of the American globalists in their youth were involved in the communist-minded *Students for a Democratic Society*, and have allied themselves with those that oppose American and Judeo-Christian values.

The American Deep State is an entity of evil that our Founders feared and warned us against. On Sept. 18, 1787, after the close of the Constitutional Convention, a lady asked Benjamin Franklin, "Well, Doctor, what have we got; a republic or a monarchy?" Mr. Franklin replied, "A republic, madam – if you can keep it." Franklin knew that a democracy would be hard to maintain. Likewise Congressman Fisher Ames said in his notes, "A democracy is a volcano, which conceals the fiery materials of its own destruction. These produce an eruption and carry desolation in their way."⁴ Samuel Adams reminded us, "Remember a Democracy never lasts long. It soon wastes, exhausts, and murders itself. There never was a democracy that did not commit suicide."⁵ Even Karl Marx said, "Democracy is the road to socialism."⁶ Our Founders knew what would destroy America, and Democrats along with some Republicans have forgotten that America was intended to be a Republic.

The Deep State is Complex

The Deep State is complex and operates on different levels that exist within our federal government. Consider the inroads of the political class in the following four powerful sectors of government.

Judiciary

Some judges, appointed to the bench for life, are enablers of the Deep State. At least 240 judges appointed by Bill Clinton and Barack Obama have corrupted our laws, and encouraged beliefs in the principles of socialism, communism, and globalism. Some do not uphold the Constitution or allow the Constitution to be cited in their courtrooms. These judges legislate from the bench with radical opinions on abortion and gay rights, remove judges that disagree with them by using false political accusations, and pursue agendas aimed at removing morality. They do not care about the rule of law, fully aware that if they control the courts, they control the country.

Career Government Employees

Some government employees whose entire careers are

with federal government agencies are prime examples of the Deep State. It is the responsibility of these agencies to uphold the Constitution and report to the American people. They do not have a license to violate the Constitution. These employees steal votes, and give themselves raises, retirements, and pensions. President Obama appointed many who, like himself, were attentive readers of "Rules for Radicals" by Saul D. Alinsky. The Deep State operates largely without public oversight. It is the government from within.

Politicians

The Deep State has infiltrated both the Democratic and Republican Parties. Members of Congress that serve long periods of time can become powerful allies with the other branches of the Deep State. It becomes a way of life.

Presidential Appointees

Some of the Deep State appointees from the Clinton and Obama administrations have "burrowed in" to other government jobs, and now function as assets in place for the party out of power. In a recent report, of 78 appointees identified, nine (9) had switched to career jobs with the Department of Homeland Security, and eight (8) with the Department of Justice.⁷ More than 300 political appointees have been burrowed into career jobs⁸ with the Obama administration having the highest appointees burrowing into the Deep State. Many of these have six-figure salaries. Many want to maintain control. They are addicted to greed and evil, and will spare no cost to accomplish their objectives, even if it means violating the Constitution. They have become a law unto themselves.

THE DEEP STATE OF EVIL

Corrupted Elections

Fair and free elections are a prerequisite to a free society. It is the intent of the Deep State to control and manipulate our elections, robbing citizens of their freedoms. They encourage illegal aliens to vote the Democratic ticket and reward them with our welfare system. These undocumented

migrants are the hapless allies of the Deep State. They are a group, a force, a demographic game changer, and the voting bloc to lock in the Deep State politicians for decades. They recruit the naïve poor to continue in their poverty, and will spend the government into oblivion to achieve the end of their radical ideology. Conservatives need to work together to clarify the voter rolls controlled by the leftist groups. We must clean up the voter rolls, and return to showing picture ID at voting stations.

Corrupted Education

The Deep State seeks the elimination of moral teaching from our educational system by removing God. This country began as a "nation under God." The Ten Commandments were the fabric of our moral character and used in the education of our youth. The Deep State has attacked our schools by expelling American history and the Bible, and replacing it with liberal agendas that promote sexual promiscuity, homosexuality and gay marriage. They have flipped the definition of evil by redefining evil as those that oppose their agenda. Our schools are now absent of Truth, and in the absence of Truth, there is tyranny. It was never the intent of our Founding Fathers for there to be a separation between church and state. The church was to be protected by the state. "In God We Trust" was to remind us that we trust, not in a mortal ruler, not a monarch, not a dictator, but in God. These words are included on the wall of our House of Representatives. Evil will try to remove them. We must be strong and fight the political war.

Flipping Facts

The public is growing weary of the media accusing President Trump of colluding with agents of Russia when the evidence points to the Democratic Party as doing exactly that. It's a legendary communist tactic: flip the facts. Hillary and the Obama administration made a deal with the Russians to allow them to take control of at least 20 percent of America's uranium. Bill Clinton received a speaking engagement in Russia for an obscene amount of money apparently as a reward for Hillary's selling America out, yet Hillary created the lie that President Trump had colluded with the Russians. She flipped the facts. Evil is very good at

what it does, and even better at covering it up, and that is what the Deep State is banking on. They are the wealthiest worldwide, and fund groups such as Black Lives Matter and Planned Parenthood to achieve their goals. They are now more sophisticated in joining forces with other globalists who lure allies to accomplish their mission. Their agenda is to create a foundation for revolution and undermine our democratic Republic.

The Deep State – What Can We Do to Counterattack?

When we as a nation, along with our leaders, pursue and pray for the righteousness that God desires, as our Founding Fathers did, then God will respond to our obedience and faith in Him as He promised: "Blessed is the nation whose God is the Lord" (Psalm 33:12), and "Righteousness exalts a nation . . ." (Proverbs 14:34). Fisher Ames, writer of the First Amendment, used to say "man is inherently corrupt." Those words influenced our form of government — a government designed to protect the corrupt from the corrupt. Our Founders devised a plan that would stand the test of time. They knew that people would change through the years, but would always be corrupt, so they made a document that would not change, based on the only One who is not corrupt; the one eternal, just, and unchanging God. This Constitution would rule over the government, lest the government follow the corrupt desires of their hearts and conspire to enslave the people. We are at war. Not like the one I fought in Vietnam, but a political war between good and evil, and the enemy is within our ranks. Will the Deep State destroy America? Or will our Republic survive? We have a choice. Our nation must return to God and battle the evil that possesses our government. We must call on God to protect us. America must reboot, and claim back our Republic. President Trump has given us this opportunity. We need to support his efforts to purge the rotten apples that have corrupted our system, and start with a whole new barrel. We need to plant new fruit in the soil of our nation. Cultivate the prized character of ethics and morality. Reinstitute the Bible and the Ten Commandments into our schools. Shut down the Deep State.

ABOUT THE AUTHOR

Dr. William Ames Curtright hosts Tea Party groups at his ranch in Oregon where thousands have attended. *He believes "the Tea Party groups are hungry for the principles and foundations of our government."* "Those principles are God and our Constitution." He supports the Republican National Committee, and is a member of the Council for National Policy. Running for Oregon's governor three times, he says he became good at losing in Democrat Oregon, but along the way enjoyed the honor of meeting patriots such as Todd and Sarah Palin, Tom DeLay, Jerome Corsi, Gen. Jerry Boykin, Herman Cain, Gov. Jim Gilmore, Scott Walker, and Matt Schlapp, just to name a few. He says these great men and women have great faith in God. He enjoys meeting people because it offers him new perspectives. Ames' family traces its lineage to Congressman Fisher Ames, a Harvard prodigy who became a member of the first U.S. Congress and penned the First Amendment of the U.S. Constitution.
